Part № 06Z-8008-SF
Introduction

Since SEERS Medical was founded in 2008, the company has always offered some basic chairs and stools to complement its range of medical furniture. Due to the increasing demand from customers to provide a complete range of clinical and patient seating, SEERS has developed a dedicated medical seating range to meet these growing requirements. In this brochure SEERS presents many new designs as well as a number of other complementary medical seating products that we distribute, providing a varied choice of models and options for various medical procedures and examinations.

The development of these products has been achieved by applying our many years of experience and knowledge in this market. Much thought has been given to the design, to benefit both the comfort and security of the patients as well as providing manual handling solutions which promote good posture and ergonomics to all clinical staff when they are using this equipment. With the management and control of our own assembly line at our premises in Debenham, Suffolk in the UK, our couches comply to the CE medical devices directive 93/42/EEC, ensuring we supply high quality products every time, with short lead times to meet the tightest of deadlines. We trust you will experience this yourself when you purchase a SEERS Medical product.

Technical Information

The SEERS Medical Seating range includes a wide variety of ergonomically designed chairs and stools designed for clinicians, surgeons, therapists and more. All SEERS Seats are manufactured in Debenham, Suffolk and are individually inspected before being packed. This range complements the existing SEERS Clinical & Therapy Ranges, providing comfort and support to the person performing procedures. The collection of seats caters for a large variety of healthcare environments, including hospitals, general practices and therapy clinics.

Here's what some of our customers think...

⭐⭐⭐⭐⭐ “Excellent service & great products”
- Sandra

⭐⭐⭐⭐⭐ “No backache since purchasing one of your chairs”
- Michael

⭐⭐⭐⭐⭐ “High quality & durable equipment”
- Cynthia

⭐⭐⭐⭐⭐ “Great products with a reliable and friendly service”
- Martina
Proximity Stools

This stool is intelligently designed to have one flat side, allowing the clinician to get in close proximity to the patient during a procedure. The stool is available in both standard and chrome bases, both with an excellent height range of 55-81cm. Included as standard with SEERS Echocardiography Couches.

Models

- **MC6105** Proximity Stool with black standard base and glides
- **MC6106** Proximity Stool with chrome base, strut and glides

Dual Curve Medical Stools

The dual curve medical stools feature an ergonomically designed seat pad, the curvature and static tilt of the seat encourages pelvic tilt, prevents slouching and promotes positive posture. An ideal suturing stool for clinical environments such as Delivery Suites, Theatres and A&E Departments, where the clinician is required to work in close proximity to the patient during these procedures. The foot height control option provides hands free height adjustment during these procedures.

Models

- **MC6168** Dual curve medical stool - standard model
- **MC6169** Dual curve medical stool - high model

Foot support ring fitted as standard.

Foot height control option available
Deluxe Saddle Chairs

The Deluxe Saddle Chairs are commonly used in Sonography, Dentistry and Surgical environments. The ergonomic design promotes positive posture by encouraging pelvic tilt whilst the user straddles the stool with both feet firmly on the floor and body weight is distributed through the thighs. The 2 lever mechanism operates and adjusts the seat height and tilt. All models feature a polished aluminium five star base and castors, with option of foot height control. An optional matching back support is also available if required.

Models

MC6108 Deluxe saddle chair - high model
MC9123 Matching back support

Saddle Stools

The new Coccyx Saddle Stool has a cut-out at the rear of the stool to reduce tail-bone pressure and pain during long seated procedures. The curved seat pad design provides a similar ergonomic seated position to the general saddle stool. Both the standard and the coccyx stools have a similar design to the deluxe saddle chairs, designed to encourage positive posture throughout seated procedures. The 2 lever mechanism operation provides independent adjustment for the seat height and tilt. All models feature a polished aluminium five star base and castors.

General Medical Chairs

Suitable for a wide range of medical procedures, these chairs provide comfort and support for clinicians sitting for long periods. The deep padded round seat features a pressure reducing foam membrane and in combination with the fully adjustable backrest, promotes good posture and comfort. There is a choice of standard or high models, with high models also featuring a Foot Support Ring as standard.

Features

- Deep padded seat with pressure reducing foam
- Suitable for long periods of sitting
- Weight capacity and safe working load of 150Kg
- Wide choice of models available
- Anti-bacterial and waterproof vinyl upholstery
- Restraint castors fitted as standard

Surgeons & Sonographers Chair

The surgeons and sonographers chairs feature an ergonomically designed seat pad and smaller backrest that will not impede the movement of the arm during scans and procedures. The curvature design and seat pad adjustment encourages pelvic tilt, prevents slouching and promotes positive posture. The chair is standard with a small, compact base to reduce trip hazards and features a wipe clean upholstered underside.

Features

• Wide choice of models available
• Ergonomically designed seat
• Compact backrest for improved scanning procedures
• Seat and backrest upholstered on both sides
• Weight capacity and safe working load of 150Kg
• Anti-bacterial and waterproof vinyl upholstery
• Restraint castors fitted as standard

Multi Procedures Chair

Ideally suited for Operating Suites, Ultrasound, Dentistry and Ophthalmic Departments. The 360° swing around arm provides the clinician with an armrest or torso support, using a single movement and offering additional stability during procedures. The ratchet system allows the armrest to be adjusted towards or away from the clinician, providing the user with a variety of options for different procedures. The height of the arm can also be adjusted, ideal if it is being used to support the torso. The backrest models provide additional support and comfort. All models are available with a foot height control as an option.

Features
- Wide Choice of Models Available
- Intelligent & Ergonomic Design
- 360° Swing around arm fitted on all models and can be used as a backrest or armrest
- Safe Working Load of 150kg
- Upholstery vinyl is Anti-Bacterial, Fireproof to Crib 5 and Waterproof
- Glides (Static Feet) fitted as standard
- Available in a wide range of colours

Optional Accessories
- 6178 Anti-static castors
- 6455 Load locking castors
- 6172 Manual locking castors
- 6173 Glides for added stability on high models
- 6174 Foot height control operation
- 6176 Foot support ring for standard model

Ophthalmology Chair

The chair has a low seat height for patient mount and dismount and the hydraulic height adjustment enables the clinician to alter the position of the seated patient to the desired height before carrying out procedures and examinations. The arms provide maximum support for the patient as they mount and dismount the chair. The headrest is able to adjust in height and angle for optimum comfort and positioning.

Models

- **MC6172** Ophthalmology Chair - Hydraulic

![Model MC6172 in Sky Blue](image)

Phlebotomy Chair

The hydraulic height adjustable phlebotomy chair enables the operator to easily and accurately position the patient for blood sampling procedures. The chair is a compact and space saving alternative to electrically operated chairs and couches. Supplied with a sturdy base on glides (static feet) to ensure the patient is secure. Integral arm supports are fitted as standard to assist the patient in mounting and dismounting the chair. The chair has a height range of 50cm to 64cm. These models are available with a choice of single or dual phlebotomy armrests.

Models

- **MC6154** Hydraulic phlebotomy chair with single adjustable armrest.
- **MC6155** Hydraulic phlebotomy chair with dual adjustable armrests.

![Model MC6155 in Dark Blue](image)
The Orwell collection features a shaped backrest for comfort, support and ease of function, designed for long term usage. The ergonomically designed backrest and inflatable adjustable lumbar provides corrective orthopaedic support for the lower sacral, mid-lumbar & upper thoracic vertebrae. The waterfall seat pad reduces pressure from underneath the thighs, providing comfort and assists in promoting positive posture. A seat slide is fitted as standard to further improve posture and sitting position.

**Models**

- 6183 High backrest task chair
- 6184 Full backrest task chair

Havering range of task chairs are designed for sustained use and incorporate a square shaped backrest with cold-cure contoured foam for prolonged comfort. The waterfall seat pad reduces pressure from under the thighs and assists in improving positive posture. The 3 lever heavy-duty mechanism provides independent adjustment for height and backrest angle and features a tensioning device for improved control of the seat pad tilt.

**Models**

- 6261 High backrest task chair
- 6262 Full backrest task chair

Ixworth

The ergonomically designed Ixworth collection meets the high demands of the modern office environment. The backrest features a breathable mesh fabric, encouraging air circulation and ventilation. This range is available with choice of either the 3 lever mechanism with independent adjustment, tension control and 8 position auto-backrest or the synchro-mechanism models which have a fixed height backrest and choice of round or square seat pad with waterfall design. All models feature an integral adjustable lumbar support to promote positive posture.

Models

- **6191** 3 lever mechanism and mesh backrest
- **6192** Synchro-mechanism and mesh backrest
- **6193** Synchro-mechanism and mesh backrest and square seat pad

Sorrel

The Sorrel range provides a versatile choice of office seating. All task chairs include contoured seat pad and backrest as standard. Height adjustable models feature seat pad tilt, auto-backrest height adjustment and black nylon base and castors. The Sorrel range has a variety of backrest and seat pad sizes available to suit individual user requirements.

Models

- **6271** Medium backrest task chair with standard seat pad
- **6272** High backrest task chair with standard seat pad
- **6273** Full backrest task chair with large seat pad
- **6274** Draughtsman chair with medium backrest, standard seat pad and foot support ring. Glides fitted as standard
