Seating Range

Clinical & Rehabilitation Seating Products

SEERSMEDICAL

Introduction

Since **SEERS** Medical was founded in 2008, the company has always offered some basic chairs and stools to complement its range of medical furniture. Due to the increasing demand from customers to provide a complete range of clinical and patient seating, **SEERS** has developed a dedicated medical seating range to meet these growing requirements. In this brochure **SEERS** presents many new designs as well as a number of other complementary medical seating products that we distribute, providing a varied choice of models and options for various medical procedures and examinations.

The development of these products has been achieved by applying our many years of experience and knowledge in this market. Much thought has been given to the design, to benefit both the comfort and security of the patients as well as providing manual handling solutions which promote good posture and ergonomics to all clinical staff when they are using this equipment. With the management and control of our own assembly line at our premises in Debenham, Suffolk in the UK, our couches comply to the CE medical devices directive 93/42/EEC, ensuring we supply high quality products every time, with short lead times to meet the tightest of deadlines. We trust you will experience this yourself when you purchase a **SEERS** Medical product.

SEERS Medical are ISO 14001 and ISO 13485:2016 accredited.

Technical Information

The **SEERS** Medical Seating range includes a wide variety of ergonomically designed chairs and stools designed for clinicians, surgeons, therapists and more. All **SEERS** Seats are manufactured in Debenham, Suffolk and are individually inspected before being packed. This range complements the existing **SEERS** Clinical & Therapy Ranges, providing comfort and support to the person performing procedures. The collection of seats caters for a large variety of healthcare environments, including hospitals, general practices and therapy clinics.

Deluxe Saddle Chairs

Ergo Seat · Anti Microbial · Crib 5 · 150Kg

The Deluxe Saddle Chairs are commonly used in Sonography, Dentistry and Surgical environments. The ergonomic design promotes positive posture by encouraging pelvic tilt whilst the user straddles the stool with both feet firmly on the floor and body weight is distributed through the thighs. The 2 lever mechanism operates and adjusts the seat height and tilt. All models feature a polished aluminium five star base and castors, with option of foot height control.

Multi Procedures Stool & Chair

Ergo Seat · Anti Microbial · Crib 5 · 150Kg

Ideally suited for Operating Suites, Ultrasound, Dentistry and Ophthalmic Departments. The 360˚ swing around arm provides the clinician with an armrest or torso support, using a single movement and offering additional stability during procedures. The ratchet system allows the armrest to be adjusted towards or away from the clinician, providing the user with a variety of options for different procedures. The height of the arm can also be adjusted, ideal if it is being used to support the torso. The backrest models provide additional support and comfort. All models are available with a foot height control as an option.
